INTRODUCTION

1. NOTICE OF FUNDING AVAILABILITY

The Department of Housing and Community Development (the “Department”) announces the availability of approximately \$9 million in Disaster Recovery funds. \$4.5 million in Disaster Recovery funds will be allocated through this NOFA. The funds are available to jurisdictions impacted by 1998 winter storms and declared federal disaster areas by President Clinton. Distribution and monitoring of these funds will be under the direction of the State Community Development Block Grant (CDBG) Program. The award of DRI funds to successful applicants is contingent upon the United States Department of Housing and Urban Development (HUD) receipt and approval of California’s ACTION PLAN.

This NOFA applies only to funding for recovery from the 1998 winter storms. These funds are made available to the Department from the United States Department of Housing and Urban Development (HUD) pursuant to the 1998 Emergency Supplemental Appropriations Act for Recovery from Natural Disasters. These funds are subject to and comply with the provisions of the HUD Disaster Recovery Initiative (DRI) notice published at 24 CFR Chapter 5 [Docket No. FR-4254-N-01].

Jurisdictions may apply for more than one grant award. However, the total of all grant awards utilizing Disaster Recovery Funds may not exceed \$1,000,000 for each eligible county, city and federally recognized tribe.

The Department is also making approximately \$4.5 million in Disaster Recovery funds available for eligible projects identified by the Office of Emergency Services (OES). These projects require an application completed and submitted to the Department. If any of the projects proposed by OES are not funded, that money will revert to any unfunded eligible application received under this NOFA. List of OES Projects:

Big Lagoon, Humboldt County
La Honda, San Mateo County
Pacifica, San Mateo County
Hidden Acres, Sonoma County
Monte Rio, Sonoma County
Rio Nido, Sonoma County
Las Lomas, Monterey County

The Application Package Request Form for Disaster Recovery Initiative funds is attached to this document.

NOTE:

IF YOU ARE INTERESTED IN APPLYING FOR FUNDS, YOU MUST COMPLETE THE APPLICATION AND RETURN IT TO THE CDBG PROGRAM AS SOON AS POSSIBLE.

FUNDING IS AVAILABLE ON A FIRST-COME, FIRST-SERVED BASIS, UNTIL ALL FUNDS ARE EXHAUSTED.

2. APPLICATION TIMELINES

a) Key dates:

NOFA/Application release:	June 18, 1999
Applications due to HCD:	Accepted beginning August 2, 1999 until all funds are awarded.
Last day for HCD to receive self-certification of housing element status:	Due with application
Awards announced:	On a first-come, first-served basis within 30 days of receipt of completed application

b) Application Deadline: None.

c) Number of copies: Original and 1 copy, with all required attachments.

d) Mail to: State Community Development Block Grant Program
California Dept. of Housing and Community Development
P.O. Box 952054, MS 390-2
Sacramento, CA 94252-2054

Deliver 1800 Third Street, Room 390
to: Sacramento, CA 95814

e) For further information, please call a CDBG field representative or the CDBG Program Secretary at (916) 445-6000. The CDBG FAX number is (916) 323-6016. E-mail: Lphillips@hcd.ca.gov or Ajones@hcd.ca.gov

FUNDING GUIDELINES

3. FUNDING LIMITS

a) Maximum award limits.

Eligible cities, counties and federally recognized tribes may apply for more than one DRI award. However, the total of all DRI awards may not exceed \$1,000,000. See the Appendix for the list of counties designated eligible for the 1998 disaster funds. Any city or federally recognized tribe within those counties are eligible to apply for DRI funds.

The OES projects do not have maximum award limits.

b) Limited number of awards.

Complete and eligible applications will be funded in the order received, until all available DRI funds are committed. There is no assurance that every application received will be funded.

c) Unawarded OES Funds

If any of the projects on the OES list are not funded, that money will revert to any unfunded eligible applications under this NOFA.

4. ELIGIBLE APPLICANTS

Eligible applicants for DRI funds are limited to counties and federally recognized tribes and cities within those counties that are located in a county declared a disaster area by the President due to damage sustained from the January 1998 flooding.

A list of eligible jurisdictions is provided at the end of this document in the Appendix. Applications from ineligible jurisdictions will not be reviewed.

5. ELIGIBLE ACTIVITIES

Activities eligible for funding under this section are limited to activities that are listed in 42 U.S.C. Section 5305(a)(2) and that are relevant to disaster recovery, as described in the HUD Notice, with respect to the floods of 1998, as well as the planning and administrative costs associated with the disaster recovery activity. An application may contain more than one eligible activity.

Eligible activities include:

- Acquisition of real property (including buying out of properties in a flood plain and the acquisition of relocation property);
- Relocation payments and assistance for displaced persons, businesses, organizations, and farm operations;
- Debris removal, clearance and demolition;
- Rehabilitation or reconstruction of residential and non-residential structures;
- Acquisition, construction, reconstruction, or installation of public facilities and improvements, such as water and sewer facilities, streets, neighborhood centers, and the conversion of school buildings for eligible purposes;
- Code enforcement in deteriorated or deteriorating areas, e.g., disaster areas;
- Assistance to facilitate homeownership among low and moderate income persons affected by the declared disaster, e.g. down payment assistance, interest rate subsidies, loan guarantees;
- Provision of public services, limiting costs to no more than 15 percent of the grant amount;
- Activities relating to energy conservation and renewable energy resources, incorporated into recovery;
- Construction of new replacement housing by units of general local government damaged or destroyed as a direct result of the declared disaster; and
- Planning and administration costs up to 18 percent of the grant.

Activities involving direct assistance to individuals, especially relocation and buyouts, may be more difficult to carry out since the grantee must avoid duplication of benefits from several federal agencies. Contact your CDBG field representative prior to submitting an application proposing direct assistance to individuals and business owners. Also see Duplication of Benefits in Section 7 below.

Site Control. Applicants are not required to have site control at the time of application. However, site control will be a special condition of a grant award and will need to be obtained within the first 90 days of the grant. Jurisdictions will not be able to use CDBG funds to repay any acquisition costs (for example, bridge loans) incurred prior to the date the State contract is executed and all special conditions have been met.

Program Income. All program income generated by DRI funds shall be returned to the State as program income.

6. NATIONAL OBJECTIVE

The primary objective of the DRI grants is the redevelopment of viable urban communities by providing decent housing and a suitable living environment and expanding economic opportunities, principally for persons of low and moderate income.

Consistent with federal requirements, at least ***50 percent of each grantee's DRI award*** must meet the national objective of benefit to low- and moderate-income households (80 percent of the county-wide median income adjusted for family size) also known as the "Targeted Income Group."

Therefore, up to 50 percent of each DRI grant award can meet either of the other two national objectives, the elimination of slums or blight, or a community development need having a particular urgency because existing conditions pose a serious and immediate threat to the health or welfare of the community where other financial resources are not available to meet such a need. (Please contact your CDBG field representative prior to completing an application proposing a national objective other than benefit to the targeted income group.)

Targeted Income Group (TIG) Benefit. When proposing a neighborhood or community-wide activity, benefit is generally provided to all the occupants of a geographic area or all users of the facility/service. Typically, only a portion of the CDBG funds for such an activity benefit TIG households, unless the target area is extremely depressed.

DRI activities benefit low- and moderate-income people when they can meet any one of three tests:

- a) At least 51 percent of its individual beneficiaries have low or moderate incomes.
- b) The benefits are available to all residents in an area where at least 51 percent of the residents have low or moderate incomes.
- c) The benefits are available to all residents in an area where the percentage of low- and moderate-income persons is in the highest quartile of all areas in the city or county.

7. INELIGIBLE ACTIVITIES

Disaster Recovery funds **shall not** be used for activities reimbursable by, or for which funds are ***made available by***, the Federal Emergency Management Agency (FEMA), the Small Business Administration (SBA), or the United States Army Corps of Engineers (USACE). In addition, Disaster funds must be spent on repairing damages from the 1998 winter floods; disaster funds cannot be spent upon preventative measures to protect against future storm damage if no repair of existing storm damage is involved.

In general, ineligible activities include:

- General government expenses;
- Purchase of equipment, or construction equipment;
- Fire protection equipment;
- Furnishings and personal property (unless needed by a grantee in the administration of DRI activities);
- Operating and maintenance expenses associated with repairing, operating or maintaining public facilities, improvements and services;
- Income payments such as subsistence-type grant payments made to an individual or family for items such as food, clothing housing (rent or mortgage), or utilities; and
- Providing assistance to individuals or business owners who were **required** to, but did not, maintain flood insurance as a condition of receiving previous federal disaster assistance. (This requirement can usually be verified through a title search revealing a deed restriction required of previous federal assistance.)
- DRI funds may not be used in flood hazard areas for acquisition or construction projects in communities that have been identified by FEMA as nonparticipating, noncompliant communities under the National Flood Insurance Program.
- Economic Development Activities.
- Acquisition, construction, or reconstruction of buildings for the general conduct of government damaged or destroyed as a direct result of the declared disaster.

Duplication of Benefits. DRI applications must provide documentation of the request for assistance to the appropriate federal agency listed above, along with the written response from the agency. DRI funds **can** be used in cases where FEMA, USACE, or SBA **denied** an activity. Applying for assistance after the deadline does not constitute a “denial” from that particular federal agency.

Examples of using DRI funds when other federal funds have been received:

- DRI funds **can** be used to augment FEMA funds in those circumstances where FEMA funds have been used for a project, and during implementation of the project additional funds are needed, but the deadline for applying to FEMA for additional funds has passed.
- DRI funds **can** also be used in circumstances where USACE funds have been used for a project and during implementation of the project additional funds are needed to complete the project. Documentation must be provided in the application that DRI funds are not being used as the required match. Additionally, the application must contain documentation that the USACE has determined additional funds are not available for the project, and that the project is eligible for disaster funds.

DRI applications proposing individual assistance activities such as, but not limited to, relocations, buyouts, rehabilitation's must include a plan to determine the assistance received by the individual from FEMA and SBA. Grantees must comply the provisions found at Section K of the HUD Disaster Recovery Initiative (DRI) notice published at 24 CFR Chapter 5 [Docket No. FR-4254-N-01].

8. PROGRAM ADMINISTRATION COSTS

a) General Administration Expenses.

Planning and administrative costs are limited to 18 percent of the total grant award. This is an increase over the 7.5 percent allowed under the State CDBG program for general administration.

b) Activity Delivery Expenses.

A portion of the grant award may be used to pay for the actual "delivery of the proposed activity. " Activity delivery costs for labor standards and procurement vary. As a general guideline, applications in past funding cycles have allocated no more than eight to ten percent of the grant award for activity delivery.

APPLICATION REVIEW AND SCORING

9. EVALUATION CRITERIA AND SCORING POINTS

As long as funds are available, and on a first-come, first-served basis, DRI funds will be awarded to those applicants that document an eligible activity that meets a national objective and provide a 25% match from non Federal sources.

The Department also may fund applicants at levels below their requested amounts if the Department determines that the State's interest is served by such a reduction. Specifically, if the Department judges that partial funding would principally address the most severe problem while allowing funding of another, equally severe problem elsewhere, the Department may award funds accordingly.

If applicants apply for more funding than is available, the applications will be funded in the order in which the applications arrive at HCD. If more than one eligible application arrives at the same date and there is not enough funding for those applications, the application with the highest jurisdiction wide poverty level will be funded first.

10. APPLICATION ASSISTANCE

Contact your CDBG field representative for assistance with questions and preparation of the application.

The CDBG Program retains the services of a consulting engineer. The engineer is available to provide assistance with the preparation of cost estimates and to answer questions related to engineering issues. Applicants who wish to access this service should contact their CDBG field representative.

11. APPLICATION REVIEW PROCESS

Applications may be submitted as soon as completed. However, the earliest date stamp an application may receive is August 2, 1999. Applications that arrive prior to the August 2, 1999 date will be date stamped August 2, 1999.

Each application will be date stamped upon receipt and reviewed by CDBG staff within fifteen working days. Incomplete applications will be returned to the applicant within fifteen working days of receipt of the application along with a deficiency letter outlining the information needed to make the application complete.

During the review process, the CDBG staff may contact applicants about the location of information within the application.

The Department will evaluate and fund applications based on all the activities in the application with the following exception:

Ineligible activity. If an activity within an application is found to be ineligible, the Department will delete the ineligible activity and rate and rank the balance of the activities in the application. Applicants are encouraged to discuss their proposed activities with CDBG staff prior to submitting an application.

Complete applications proposing eligible projects meeting a national objective will be recommended for award until all available funding is exhausted.

AWARD ANNOUNCEMENTS AND PROCESSING

12. AWARD ANNOUNCEMENTS

Awards will be announced within 30 days of receipt of a complete and eligible application. Please do not call the CDBG staff to ask about the status of your application. All applicants will be notified by mail as to the outcome of their application.

13. AWARD PROCESSING

All funded applications will be processed through a standardized Grant Agreement (Agreement). The Agreement will contain information about the terms and special conditions of the award. Special conditions will have to be met within 90 days of the Agreement's execution. If the conditions are not met, the Department will terminate the Agreement. **Applicants are not permitted to incur any grant-related costs prior to the State's execution of the Agreement and the applicant's satisfactory completion of any required special conditions.** Information about processing times and authorization requirements will be provided at the time the Agreement is sent to the grantee.

14. PROGRAM MONITORING

Grantees should be aware that *many* of the various Federal overlay requirements that apply to non-disaster CDBG grants will also apply to Disaster Recovery Funds. All grantees will be monitored for compliance with these requirements. For current information refer to Appendix A of the DRI notice published at 24 CFR Chapter 5 [Docket No. FR-4254-N-01], and the 1998 CDBG Grant Management Manual. Or, contact your CDBG field representative.

PROGRAM REQUIREMENTS

15. STATE REQUIREMENTS

The DRI funds shall be subject to Title 24 of the California Code of Regulations sections 710, 7112, 7114 and 7116.

16. PUBLIC PARTICIPATION

Mindful of the need to quickly make CDBG funds available to restore damaged infrastructure, the public participation requirements have been somewhat simplified for the DRI. DRI federal regulations require that grantees:

- a) Furnish residents with information identifying the funds available for the proposed Disaster Recovery efforts and the range of activities that may be undertaken, including the estimated amount to be used for activities that will benefit low- and moderate-income disaster victims.
- b) Publish a proposed Action Plan for Disaster Recovery (the jurisdiction's application) so that affected citizens will have an opportunity to examine the plan and submit comments on the proposals and on the community development performance of the grantee.
- c) Provide residents with access to records concerning the grantee's past use of Community Development Block Grant funds, as well as reasonable notice of, and opportunity to comment on, any substantial change proposed in the use or distribution of those funds.

The Grantee must consider the public comments received concerning the Action Plan and may choose to modify the plan in response. The CDBG staff will monitor all funded applications for this requirement, including the commitment shown to citizen participation, as documented in the jurisdiction's citizen participation plan.

17. PUBLIC RECORDS ACT

Applications and grant agreements are public information and must be made available for review by the public. Applicants are advised that information submitted to the State may have to be made available to the public under the State Public Records Act unless an exemption under this Act applies to the information submitted and the applicant establishes a valid claim of confidentiality under such exemption.

18. RELOCATION NOTICE

The federal requirements relating to acquisition and relocation assistance are a major consideration for eligible CDBG applicants. Jurisdictions who receive federal funds in the form of a CDBG grant are required to inform all potential program recipients, **prior to program recipients' submitting an application for assistance from CDBG funds**, of the potential for relocation as a result of the federally-funded project, and of the potential recipients' rights to relocation assistance in the event relocation is triggered by the funded activity. Applicants may wish to seek legal counsel and consult the Code of Federal Regulations, 24 CFR 570.496(a), 49 CFR, Part 24 (Uniform Relocation Act), and Appendix A of the DRI notice published at 24 CFR Chapter 5 [Docket No. FR-4254-N-01] for applicable laws. If any jurisdiction has a specific project in mind that may involve acquisition and/or relocation, contact a CDBG field representative for further guidance prior to submitting the CDBG application.

19. PROCUREMENT

The Department will monitor for procurement of goods and services and will seek to assure that equal opportunity provisions have been included in all procurement procedures.

20. 25% MATCH

A Federal requirement to obtain DRI funds is for the city, county or Federally recognized tribe receive
